Dear Mr. Speaker:

Enclosed find the report required pursuant to title 10, United States Code, section 12302(d), relating to those units of the Ready Reserve of the Armed Forces that remained on active duty under the provisions of section 12302 as of January 1, 2003.

Retention of these units was required by continuing military requirements related to the ongoing national emergency declared in accordance with the National Emergencies Act and authorized under Executive Order 13223 of September 14, 2001, "Ordering the Ready Reserve of the Armed Forces of the United States to Active Duty and Delegating Certain Authorities to the Secretary of Defense and the Secretary of Transportation."

Ready Reserve units of each of the Armed Forces are still performing essential missions in the homeland, the Americas, Southwest Asia, Europe, and the Pacific, supporting our global war on terrorism.

Sincerely,

David S.C. Chu

Overview

Subject: Report to Congress Pursuant to Title 10, United States Code, Section 12302(d)

This report reflects our continued successes through January 1, 2003, in mobilizing Reserve component (RC) service members and units (including the Coast Guard) in support of operations Noble Eagle and Enduring Freedom. We remain alert to potential adverse impacts on RC members, their families, and their employers.

The report highlights several matters, including:

- Mobilization of Reserve forces continues to be necessary in order to maintain the pace of operations associated with the war on terror and to minimize the impact on the readiness of units who, if the war expands, would be called upon to execute their primary war fighting missions.
- The armed forces remain ready to respond to emergencies where support to civil authorities on a temporary basis is deemed absolutely essential. However, DoD and its Reserve component forces must not be placed in a position where we become a manpower pool for duties that are not inherently military.

As of January 1, 2003 the number participating in Noble Eagle and Enduring Freedom had decreased since the July 1, 2002 report to 58,100 Reservists, approximately 7 percent of the Selected Reserve.

- 52,530 were ordered to active duty under Section 12302(a) Title 10, United States Code. This was 34,162 less than there were on duty July 1, 2002. The Services continue to exercise great discipline and judicious use when calling upon their Reserves. This number represents Service efforts to only call upon Reserve forces when it is absolutely necessary to fight the Global War on Terror and to use their Reserve forces in a judicious and prudent manner.
- 5,052, a decline of 3,974 since July 1, 2002, were on duty under other authorities (annual training, active duty for training, and active duty special work) supporting Noble Eagle/Enduring Freedom. These service members were generally considered volunteers.
- 518 Guardsmen were serving on State Active Duty, a decline of 193 since July 1, 2002. This number has continued to decline because states have found other ways to accomplish the missions performed by this category of personnel mentioned earlier. These personnel are not on federal duty and are funded by the individual states. The governors consider those still on duty necessary to ensure public safety.

The 246 ARNG soldiers, who were serving in support of the Customs Service, 714 ARNG soldiers, in support of the Immigration and Naturalization Service, and 184 ARNG soldiers, in support of U.S. Border Patrol, concluded their missions in support of these agencies on September 30, 2002.
