

HOUSE OF REPRESENTATIVES

Under clause 8 of Rule XII, executive communications were taken from the Speaker's table as follows:
COMMUNICATION 01324 from the

Deputy Chief of Naval Operations (Manpower and Personnel), Department of Defense

transmitting

notification of a decision to implement performance by the Most Efficient Organization (MEO) for the Public Works Center Maintenance and Repair of Building and Structures in San Diego, CA (initiative number NC20020795).

Referred to the Committee on Armed Services. April 5, 2005.

DEPARTMENT OF THE NAVY
OFFICE OF THE CHIEF OF NAVAL OPERATIONS
2000 NAVY PENTAGON
WASHINGTON, D.C. 20350-2000

AS
FT
TO 1407

IN REPLY REFER TO
FEB 14 2005

The Honorable J. Dennis Hastert
Speaker, House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

This letter provides you notification of a decision to implement performance by the Most Efficient Organization (MEO) for Public Works Center Maintenance and Repair of Building and Structures in San Diego, CA (initiative number NC20020795).

The analysis of the function was commenced in August 2002. The U.S. Navy anticipates implementation of the MEO operations in April 2005.

An examination of the cost of performance of the function by DoD civilian employees and by the accepted offer of the private contractor produced a finding that the most cost effective manner to obtain the services is with MEO performance. Below is a summarized comparison of the cost of performance of the function:

Historical Cost to perform by DoD civilian employees:	\$ 392,857,000
Estimated cost to perform by DoD civilian employees:	\$ 325,092,000
Amount of Private Contractor's Offer:	\$ 350,892,000
Estimated Government incurred cost because of contract:	\$ 4,307,000
Total projected savings over the period of performance:	\$ 67,765,000

The announced number of DoD positions performing the function when the analysis was commenced was 809. The MEO will be 553 positions. We estimate, as a result of the competition, 100 DoD employees will take early or normal retirement, 50 permanent or temporary employees will be separated and 106 positions are currently vacant.

Civil servants affected by MEO implementation are given assistance in continuing their Federal careers through priority placement programs and reassignment in DoD or other agencies. In addition, the Department of the Navy works in cooperation with the Department of Labor and State Employment Services to assist affected employees in locating positions in private industry or to afford these personnel opportunities to undertake retraining programs qualifying them for jobs available in local labor markets.

I make the following certifications:

The analysis of the function for possible change to private sector included the estimated cost to the Government for performance in the most cost effective manner by DoD civilian employees; and the analysis did not include any predetermined personnel constraint or limitation in terms of man-years, end strength, full-time equivalent positions, or maximum number of employees.

The entire analysis is available for examination and demonstrates that the performance of the function by the MEO will result in savings to the Government over the period of performance.

The conversion of the function to MEO operations results in anticipated savings that make the resulting cost of operations significantly less than the current cost of operations. This equates to a \$13,553,000 annual reduction of gross salaries and other services being expended into the local economies. With a total business volume of over \$24,918,704,000 in annual sales, this reduction represents less than 0.0544% of sales.

A similar letter has been sent to the President of the Senate and Chairmen Warner, Stevens, Hunter, and Young. If I can be of further assistance, please let me know.

Sincerely,

G. L. HOEWING
Vice Admiral, U.S. Navy
Deputy Chief of Naval Operations
(Manpower and Personnel)
