The FY27 **NDAA**

REBUILDING THE ARSENAL OF FREEDOM

REVITALIZING THE DEFENSE INDUSTRIAL BASE

The FY27 NDAA expands U.S. production capacity, unleashes private sector investment, opens the door to new and innovative entrants, reduces needless regulations, and creates thousands of skilled jobs for Americans.

IMPLEMENTING PRESIDENT TRUMP'S AGENDA

The FY27 NDAA carries out the President's commitment to build a ready, capable, and lethal fighting force by advancing over 65 of his Executive Orders and Legislative Proposals and by fully authorizing his top defense priorities.

IMPROVING SERVICEMEMBERS' QUALITY OF LIFE

The FY27 NDAA supports the President's request to raise all servicemembers' pay by 5 to 7% and improves housing, education, and access to childcare for military families.

RESTORING LETHAL CAPABILITIES

The FY27 NDAA rebuilds depleted stockpiles by providing the authorities and resources required to expedite the production and acquisition of munitions and key warfighting capabilities. It accelerates the fielding of game changing technologies like quantum computing, hypersonics, and autonomous systems.

STRENGTHENING AMERICAN DETERRENCE

The FY27 NDAA prioritizes investment in the forces and capabilities needed to maintain a strong U.S. posture. It strengthens nuclear deterrence, expands missile defense, and targets resources and authorities to counter adversaries like China, Russia, Iran, and North Korea.

ELIMINATING WASTE, FRAUD, AND ABUSE

The FY27 NDAA builds on progress made in FY26 to streamline DoW operations and cut nearly $30 billion in wasteful programs. It stands up a new task force and provides new authorities to eliminate fraudulent payments and achieve a full and clean audit within 24 months.
