

The FY27

NDAA

REBUILDING THE ARSENAL OF FREEDOM

Wingspan: 172ft | 52.4m

The FY27 NDAA Chairman's Mark

Revitalizing the Defense Industrial Base

The FY27 NDAA expands U.S. production capacity, unleashes private sector investment, opens the door to new and innovative entrants, reduces needless regulations, and creates thousands of skilled jobs for Americans.

Restoring Lethal Capabilities

The FY27 NDAA rebuilds depleted stockpiles by providing the authorities and resources required to expedite the production and acquisition of munitions and key warfighting capabilities.

Improving Servicemembers' Quality of Life

The FY27 NDAA supports the President's request to raise all servicemembers' pay by 5 to 7% and improves housing, education, and access to childcare for military families.

Strengthening American Deterrence

The FY27 NDAA invests in the capabilities needed to maintain a strong U.S. posture. It strengthens nuclear deterrence, expands missile defense, and provides resources and authorities to counter adversaries like China, Russia, Iran, and North Korea.

Expediting Innovation to Warfighters

The FY27 NDAA ensures our warfighters have the capabilities they need to prevail in future conflicts by accelerating innovation and prioritizing cutting-edge technologies like hypersonics and autonomous systems.

Improving Accountability to Taxpayers

The FY27 NDAA builds on progress made in FY26 to streamline DoW operations and cut billions in wasteful programs. It stands up a new task force and provides necessary resources to achieve a full and clean audit within 24 months.
